IN REPLY REFER TO:

1703

(UT-923)

JUN 1 2009

Ms. Carol Campbell  
U.S. Environmental Protection Agency, Region 8  
1595 Wynkoop Street  
Denver CO 80202-1129

Dear Ms. Campbell:

In your letter of May 11, 2009, you requested assistance in identifying a parcel of land for an additional repository in the Park City area of Summit County, Utah. The Salt Lake Field Office would be more than happy to provide a tour to show you the general area and the locations of the few remaining BLM administered lands.

Because of the location and configuration of those remaining BLM parcels, however, it is unlikely that any would be suitable as a repository. In addition, the land use plan for that area does not provide for the opportunity for siting a repository on BLM. If a parcel of public land is identified with potential, we may be able to transfer the parcel to EPA. Further, BLM has a long standing policy of not allowing hazardous waste from private lands to be brought onto public lands for disposal.

Please contact Mike Nelson of the Salt Lake Field Office to arrange for a tour. His contact information is (801) 977-4355 and email is [mike\\_nelson@blm.gov](mailto:mike_nelson@blm.gov).

Sincerely,

/s/ Jeff Rawson

Jeff Rawson
